RETI ; return from maskable interrupt routine"
Insert: "RET ; return from subroutine"

Page J - 6 **Character I/0 under CP/M**
Device assignments
Add to the list under "These logical devices can be assigned to the following physical devices":
"ULI" the printer"

Delete from the list under "CP/M also has the following .... this implementation":
"ULI:"

Page J - 7 LPT: the printer
Delete: "..., ignoring linefeeds.."
Insert: "....,with no ignore character.."

Add to the end of the paragraph: "ULI: is the same as the LPT: device except that no messages appear if a printer is not connected or if it is not on line. The system will hand waiting for a printer to be connected or put on line".

Z80 BBC BASIC User Guide 0409,003 Issue 1

Page 3 **1 Running BBC BASIC**
Delete: "Russell"
Insert: "Russell"

Page 7 Delete: "3 Assembly language and operating calls"
Insert: "3 Assembly language and operating system call"

Delete from last line of page: "..(see 'Operating System access') overleaf."
Insert: "..(see 'Operating System access' overleaf)."

Page 8 Delete from the middle paragraph the duplication of: "If the exponent is zero .... four bytes."

Delete from the middle paragraph: "Note that an integer value can be represented .... in the latter".
Insert: "Note that an integer value can be represented in two ways, for example the value -5 can be represented as &00FFFFFFFB or as &82A0000000; X = -5 will result in the former and X = -5.0 in the latter."

Page 9 third line down:
Delete: "communicated"
Insert: "communicated"

last sentence:
Delete: "..OSCLI "DIR $".."
Insert: "..OSCLI "*DIR $".."

last line:
Delete: "..rather than to the result.."
Insert: "..rather than result.."

Page 12 sixth line:
Delete: "*DRIVE d"
Insert: "*DRIVE d:"

<u>Memo Plan User Guide 0409,005 Issue 1</u>

Page 50 **Printing**
Printing the current document
Delete from the last paragraph: "You can type in as many option codes as you like. Separate them with a space".
Insert: "You can type in an many option codes as you like and separate them with a space. However, the total length of the line - including spaces - must not exceed 16 characters."

Page 51 fifth line down:
Delete: Type -5 -P -PAGE 3RETURN
Insert: Type -5 -PAGE 3RETURN

Page 9 **The screen**
The "T"s shown in the screen illustration are deleted and replaced by hyphens, so that it now looks like this:-

<--->----------------------------

ruler line
Delete: "T shows the position of a tab stop"
Insert: "T shows the position of a tab stop (not shown in screen above)".

See pages 16 and 24 for tab information.

Page 52 Delete entry for print option code – P.

Page 53 Interrupting printing now reads:
"Type
CTRL C to stop printing and go back to the A> prompt
CTRL Z to stop printing and go back to the A> prompt
CTRL G to stop printing and go back to the A> prompt
CTRL S to pause
To continue printing after a pause, press any key".

Page 54 Printing without entering Memoplan
Last paragraph now reads: "The options are the same as in ordinary Memoplan printing, with the addition of -P. This option makes the printer pause at the end of each page (to give you time to feed sheets of paper in)".
